

# Responsibility Code and Ski Etiquette

---

1. Always check posted trail conditions, either at *wasiski.com* or on the blackboard outside the chalet. Ski at your own level and in control.
  2. We are now setting double tracks on some of our trails. All trails, except for the loop-back section of the blue, are still single direction. Ski in the indicated direction and obey all posted signs.
  3. When skiing on sections with double tracks keep right except to pass. If you are using the left track to pass, to talk to a friend, or because it is a better track, and a faster skier catches up to you, move to the right track to let the faster skier pass on the left.
  4. When skiing on sections with single tracks and a faster skier catches up to you, step out of the track to your right to let the faster skier pass in the track on your left.
  5. If you approach a slower skier you should announce your intention to pass by yelling "Track, please!" or "On your left, please" – and thank the slower skier as you pass. Reduce your speed while you pass on their left - then take off again once you have passed them. Think of other skiers as yield signs.
  6. Keep off closed trails.
  7. Do not stop where you obstruct a trail or are not visible to others.
  8. If you fall, move quickly off the track. If the trail is damaged, please try to repair it as best as you can, but do be careful of oncoming skiers.
  9. For your own safety and the safety of others, when you approach a steep hill, please be sure there is sufficient room between you and the skiers in front of you before starting your descent.
  10. Do not litter. Take out what you bring in and respect all property.
- 

Enjoy the trails!
